

Searching the literature for your research bid

Mon 04.10 - Fri 08.10.2010

Place: E-Learning
Contact person: Claire Burchnall
E-Mail address: cb269@leicester.ac.uk
Telephone: 0116 252 3276
Category: Workshop
Additional Information:

'Searching the Literature for your Research Bid' will help you to develop a 'scoping' search of the literature to inform a research protocol and/or funding bid.

It is an e-learning course which comprises four 'units', three of which include 'brief activities' – (these tasks are not assessed and will not need to be submitted.) It allows you to study in your own time, and apply your learning to your own research.

If you register for the course and complete the Course Completion Quiz and Course evaluation we will send you a certificate.

These courses run over one week with approximately 1 hr activity per day,
to be undertaken at any time during the week or the week following –
they
are designed to allow flexible learning that can be fitted around work commitments.
